Subject: Fw: Diamond Alkali Superfund Site: Okonite as a Potentially Responsible Party

Mr. Fajardo:

Thank you for taking the time to discuss the ongoing work on the Diamond Alkali Superfund Site by the EPA. As we discussed, my firm, McCullough Ginsberg Montano & Partners LLP will be representing the Okonite Company in this matter and one of the ways that I will be able to better understand the issues will be to examine the files/records that EPA has developed for the site and for Okonite as a Potentially Responsible Party. I would appreciate the opportunity to review these records and if you are able, could you provide me with a contact person who I can reach in order to arrange a time to review these files. I realize that the entire file for the site may be large, so I would like to initially inquire about reviewing the Okonite file first, if possible.

Thank you for your assistance,

David Brook
